

Let's Make Milk Carton Houses

①

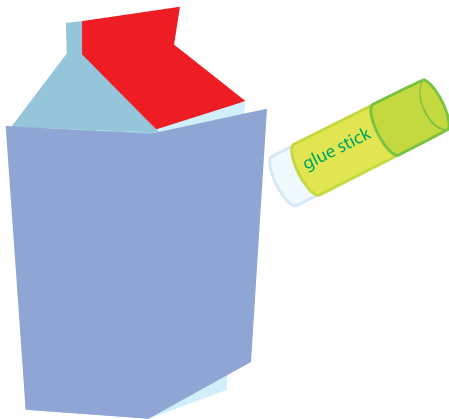

- Wash out an empty milk or juice carton and make sure that it is completely dry before using.

②

- Have a parent help you measure a piece of construction paper large enough to cover the outside of the carton.

③

- Glue the paper around the outside of the carton.

④

- Cut out a rectangular piece of paper for the roof and attach with glue or tape.

⑤

- Cut out the pictures you printed out.

⑥

- Arrange the pieces onto your milk carton house and secure with glue.

Let's Make Milk Carton Houses

- ①
- You can print this out on sticker paper or regular printer paper.

If you use regular paper, use glue on the back.

②

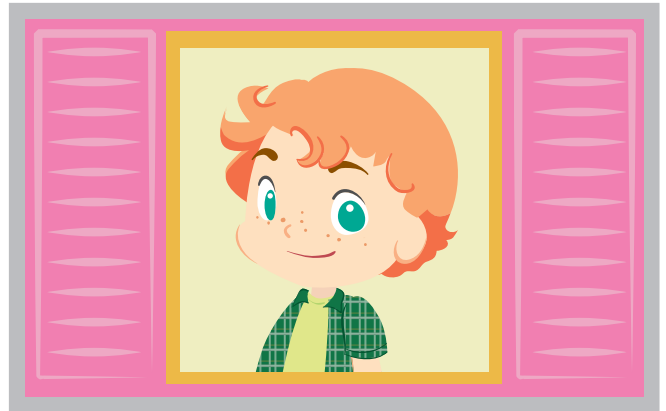

- Cut out the pieces.

③

- Stick them onto your milk carton house.
